### Rated Power Output—Maximum

| Gross Power                  | 450 BHP (336 kW) @ 2300 RPM          |
| Net Power                    | 435 SHP (325 kW) @ 2300 RPM          |

## Equipment Specifications

- **Air Inlet Housing**—With manual or electrical shutdown
- **Aftercooler**—Two-pass with precooled coolant supply
- **Alternator**—24 volt, 75 amp
- **Cooling System**—Cast expansion tank with raw water pump
- **Crankcase vapor collectors with silencers**
- **Crankshaft Pulley**—3 grooves, 50 inch wide
- **Engine Mounts**—Resilient mounts for both engine and marine gear
- **Exhaust System**—Fresh water-cooled manifolds and turbine housing
- **Flywheel Housing**—SAE #2
- **Fuel System**—Cam operated unit injectors with low pressure USCG type A external hoses, fuel filters and cooler
- **Governor**—Variable speed
- **Lube Oil Filter**—Full flow
- **Marine Gear**—Available with Detroit Diesel-507-2 (1.51, 1.77, 1.98 reduction ratios)
- **Oil Pan**—Cast, designed for 0°-15° inclination angle, rear sump
- **Starting Motor**—24 volt

For a complete listing of standard and optional equipment, consult your authorized Detroit Diesel Corporation representative.

Rating conditions: ISO 3046, SAE J1349, SAE J1228
77°F (25°C) and 29.31 in. Hg. (99kPa) Barometer (Dry)

Photograph illustrates a typical marine engine.
Performance Curve

Model 6V-92TA—Maximum

Rating Explanation

RATED BHP Basic engine gross horsepower.
Rated SHP Net power available at the marine gear output flange.
PROPELLER LOAD indicates horsepower absorbed by a typical fixed pitch propeller.
POWER OUTPUT guaranteed within 5% at rated ambient conditions.
MARINE MAXIMUM The marine maximum rating applies to high performance boats where speed is of primary importance and overall load factors are low. Normal or continuous cruising RPM should be limited to 90% of rated engine RPM, and the use of full rated power should be limited to 10% (average) of operating time. This rating is normally reserved for privately-owned yachts in non-revenue applications with an average annual hour accumulation of 500 hrs.

NOTE: Other boats; e.g., fire, police, with an overall duty cycle similar to maximum or intermittent maximum may be applied at the appropriate rating.
Consult your authorized Detroit Diesel Corporation representative for the rating that will apply to your vessel.
