MTU warrants new parts sold by MTU be free from defects in material and workmanship at the time of sale. This warranty applies for parts sold by MTU after January 1, 2011.

This warranty is subject to the following:

1. **Warranty Period**

The Warranty Period is 12 (twelve) months and unlimited hours. The warranty period begins on the date the new service replacement part is installed on a MTU engine by an authorized MTU service outlet or the date of sale on "over the counter" purchases.

2. **MTU Responsibilities**

If a warrantable failure is found during the Warranty Period, and provided the owner complies with its obligations under Section 3, MTU will, during normal working hours and through an MTU authorized distributor, dealer or workshop:

- Repair or replace, at MTU's election, the defective part with a new or remanufactured replacement part
- Replace lubricating oil, filters, antifreeze and other service items rendered unusable by the defect
- Provide reasonable or customary labor needed to correct the defect.
- Provide reasonable technicians travel time to and from the equipment location from the closest MTU service outlet.

MTU's obligation to repair or replace defective parts does not include, and expressly excludes, responsibility for reimbursement of incidental or consequential costs including, but not limited to, costs associated with removal and reinstallation of the engine for its intended use, and/or transportation costs.

3. **Owner Responsibilities**

During the Warranty Period, owner is responsible for and MTU will not reimburse:

- (a) Premium or overtime labor costs;
- (b) Charges on parts purchased on "over-the-counter" sales including labor costs for part removal, repair and reinstallation, or progressive damage to other engine parts

- (g) Parts shipping charges in excess of those which are usual and customary.
- (h) Local taxes, if applicable.

In addition, owner must

- (h) Promptly notify MTU or its authorized representative of a warrantable failure and make the engine available for repair.

- (j) Perform all required maintenance, and maintain and provide proof that all required maintenance has been performed.
- (k) Use specified consumables such as fuel, oil, lubricants and coolant.
- (l) Allow MTU access to all electronic data stored in the Electronic Control Module, as applicable.
- (m) Promptly return to MTU upon demand all parts replaced under warranty.
- (n) Comply with MTU Long Term Storage Guidelines, if applicable, and maintain and provide proof of compliance.

4. **Limitations**

MTU is not responsible for:

- (a) defects which were obvious or capable of being identified by reasonable inspection and not reported to MTU within 3 days of receipt of the engine; or
- (b) failures caused or potentially caused by any failure to follow MTU requirements for installation, commissioning, operation, maintenance, service, repair, inspection or use of MTU specified consumables; or
- (c) failures caused or potentially caused by service work performed by non-MTU authorized service providers and/or the use of non-genuine MTU parts; or
